

A New Force in Silver's Future

El Quevar Project

Forward Looking Statements

This presentation may contain forward-looking statements that are not historical facts. Forward Looking Information includes, but is not limited to, disclosure regarding possible events, conditions or financial performance that is based on assumptions about future economic conditions and courses of action; the timing and costs of future exploration activities on Argenta Silver Corp. ("Argenta Silver") properties; success of exploration activities; permitting timelines and requirements; requirements for additional capital; environmental requirements; planned exploration and development of properties and the results thereof; planned expenditures and budgets and the execution thereof. Often, but not always, forward-looking statements can be identified by the use of words such as "expects," "plans," "estimates," "intends," "believes," "could," "might," "will", "budget", "scheduled", "forecasts", "anticipates", "potential", "base case" or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results, performance, or achievements of Argenta Silver to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Forward looking statements or information relates to, among other things, Argenta Silver's corporate strategies, mineral resource estimates and plans for further exploration, which will require additional funding. These forward-looking statements are based on management's current expectations and beliefs (including the belief in the accuracy of the resource estimate) but given the uncertainties, assumptions and risks, readers are cautioned not to place undue reliance on such forward-looking statements or information. Information in this presentation is not intended to be a comprehensive review of all matters and developments concerning Argenta Silver and Argenta Silver does not assume any obligation to update, or to publicly announce, any such statements, events or developments, except as required by law.

For additional information on risks and uncertainties, see Argenta Silver's most recently filed annual management discussion & analysis ("MD&A"), which is available on SEDAR at www.sedarplus.com. The risk factors identified in the MD&A are not intended to represent a complete list of factors that could affect Argenta Silver.

Some of the mineral resources at the El Quevar Property are categorized as indicated and some as inferred mineral resources. Mineral resources that are not mineral reserves do not have demonstrated economic viability. Mineral resource estimates do not account for mineability, selectivity, mining loss and dilution. These mineral resource estimates include inferred mineral resources that are normally considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as mineral reserves. There is also no certainty that these inferred mineral resources will be converted to measured and indicated categories through further drilling, or into mineral reserves, once economic considerations are applied.

Compliance with NI 43-101: The technical information in this presentation has been prepared in accordance with the Canadian regulatory requirements set out in National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101") and was reviewed and approved by Andrew Hamilton, P.Geo., a consultant to the Company, and the Qualified Person under NI 43-101.

The Right Silver Opportunity

“

For 40 years, I've dreamed of building a pure silver company in Latin America. Exceptional pure silver assets are incredibly rare, and when the El Quevar opportunity presented itself, I knew instantly—this is it. We have a clear vision to scale this into a much larger company.”

Frank Giustra
Major Shareholder

Investment Overview

High-Grade, Low-Tonnage Mineralization

Small-scale discoveries can significantly boost resources, supported by a significant **pure silver resource of 45.3 Moz @ 482 g/t Ag (Indicated) and 4.1 Moz @ 417 g/t Ag (Inferred)(1)**.

Attractive Valuation & Acquisition at a Fraction of Value

Post-deal market cap of **~C\$25M with ~C\$9.0M in working capital**. Acquisition at a fraction of value, with a **US\$3.5 million acquisition cost against over C\$60 million in historical investment**, including 100,000 meters of drilling.

Expansion and Growth Potential

Positioned for growth in a rising silver market. The mineral resource area is open down-plunge and to other directions, with less than 1% of the project area explored, located along a major continental structural corridor.

Prime Location

Situated in Argentina's top mining jurisdiction, highlighting the country's renewed commitment to business and investment. Salta province is the best-voted jurisdiction of Latin America by the Fraser Institute for 2023

Strong Infrastructure

Ready-to-use camp, extensive internal roads, and infrastructure enabling rapid project restart.

Backed by Industry Experts

Supported by the Fiore Group, with a proven track record in the mining industry. Backed by mining leader and entrepreneur **Frank Giustra**.

(1) Source: Refer to NI43-101 technical report with effective date of September 30, 2024, titled "NI 43-101 Technical Report on the Mineral Resource Estimate of the El Quevar Project Salta Province, Argentina", posted on www.SEDAR.com under Argenta Silver Corp.

“Latin America is home to some of the most significant silver deposits on the planet, a legacy from nature, forged by extraordinary, powerful, and enduring geological events that shaped the region millions of years ago, leaving behind an enormous wealth of untapped silver for the future. **Our work now is to lead the technical team to fully unlock its potential in the most effective and efficient way**, and by doing so we expect to create sustainable value for our shareholders and benefit the nearby communities.”

Joaquin Marias

President, CEO and Director

Salta: Latin-America's Premier Mining Region

Located in **Salta Argentina**, most pro-mining province in the country. Major companies working in the province, including Rio Tinto, First Quantum, Aldebaran, AbraSilver, and Fortuna Mining. Circa 35 registered projects, mostly lithium, followed by gold and copper, silver, lead and zinc, borates and uranium.

Best voted jurisdiction of Latin America by Fraser Institute for 2023.

Accessible For New Discoveries

- Land package of **57,000 hectares**.
- Located along a **major continental structural corridor**, home to giant mines like El Abra and Chuquicamata.
- Year-round accessibility with all-vehicle road access.
- Close to the **community of Pocitos**, eager for the project's restart.

El Quevar Project

High-grade, low-tonnage, pure silver play

Mineral Resource Estimate (2024)⁽¹⁾

Category	Tonnage (Mt)	Silver Grade (g/t)	Metal Cont. (Moz Ag)
Indicated	2.93	482	45.3
Inferred	0.31	417	4.1

Unlocked expansion potential due to previous lack of funding and mismanagement.

Infrastructure for Success

Internal

Ready-to-use camp for 100 workers.
Over 60kms of internal roads (*high construction cost*).
Over 400 drillholes (*100,000 meters drilled*).
1,250-meter underground decline ramp.
Multiple onsite generators.
Core logging facilities.
Multiple buildings, warehouses, fuel tanks.
Explosives warehouse (*permitted*).

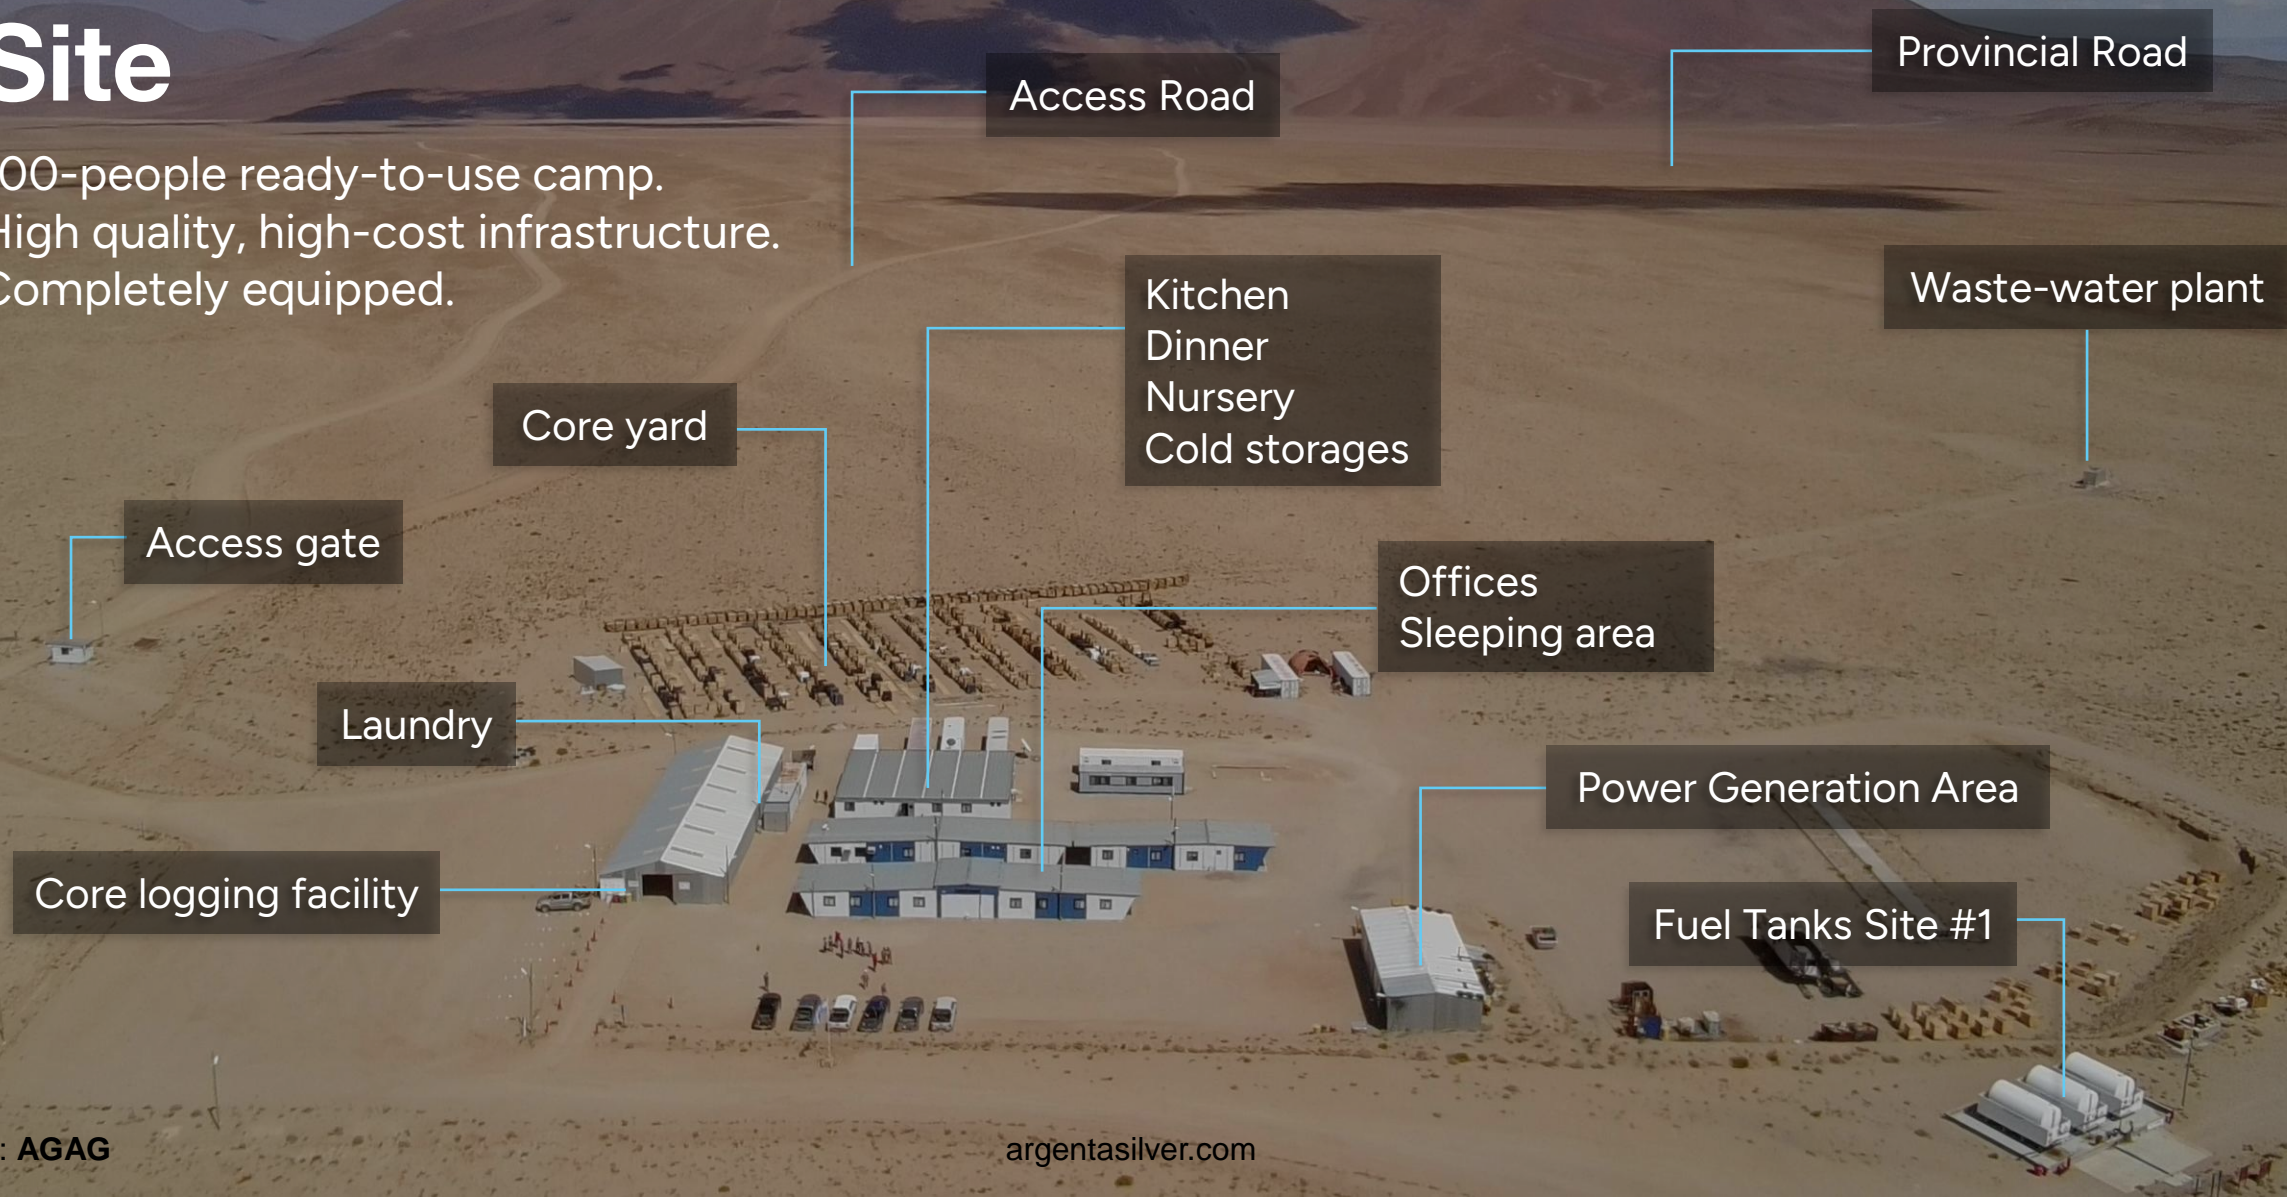

External

National public road access.
Gas pipeline for mining projects at 4 km.
High voltage power line at 20 km.
Two photovoltaic parks located at 20 km, including the largest one in South America.
Multiple mining friendly communities.

Fully Operational Site

100-people ready-to-use camp.
High quality, high-cost infrastructure.
Completely equipped.

Exploration Plan

Season 2024 - 2025

PHASE 1

- Camp reconditioning.
- Internal roads rehabilitation.
- Historical database compilation.
- Re-log of historical drillcore.
- Targeted surface sampling program.
- State-of-the-Art geological studies.
- -Re-modelling and re-interpretation.
- Definition of drill targets.

PHASE 2

- Drill targets from Phase 1:
 - 15% Confirmation drilling
 - 25% Resource Expansion and Step-Out
 - 60% Exploratory [targets adjacent from MRE]

Argentina is Open for Business

Under President Javier Milei, Argentina is attracting foreign direct investment after years of market isolation.

Strengthened institutions have positioned Argentina as a **key opportunity in South America.**

New regulations supporting natural resource industries, and investment have been passed under Milei's leadership.

Argentina is Open for Business

3rd

3rd largest economy in Latin America.

20

Over 20 copper projects in exploration.

5th

10 operational gold mines; 5th largest producer in Latin America.

2nd

2nd largest global lithium reserves, 4th largest producer.

Silver Today for Tomorrow

Silver demand is rising, boosting price performance.
Strong demand from the photovoltaic industry.
Immediate need for next-gen silver batteries.
Prices climbing due to geopolitical concerns.
Silver remains undervalued compared to gold.

Argentina's Silver Exports

Millions of US dollars

Argentina is the **10th largest silver producer globally**, holding **3% of world reserves**.

6 advanced silver projects in exploration stages.

The **Cauchari Solar Farm**, at 20Km from the project, is the biggest one in South America, with 1.2 million panels and a total of 500 MW capacity.

Top Tier Silver Asset

Stock listed on
TSX.V: **AGAG**

Third-largest undeveloped single silver resource in Argentina.
92% of the Mineral Resource Estimate is in Indicated category.
Upside potential for resource expansion and optimization.
Pure silver play, with exceptional high grade.

El Quevar Indicated Resource
**2.93 Mt containing
45.3 Moz of silver
at 482 g/t Ag.¹**

(1) Source: Refer to NI43-101 technical report with effective date of September 30, 2024, titled "NI 43-101 Technical Report on the Mineral Resource Estimate of the El Quevar Project Salta Province, Argentina", posted on www.SEDAR.com under Argenta Silver Corp.

Reasons to Invest in Argenta Silver

Growth Potential

Proven Track Record

Backed by the Fiore Group, led by renowned mining investors Frank Giustra and Gord Keep, who have a history of value creation in the mining sector.

Decades of Value Creation

The Fiore Group brings three decades of experience in building successful mining companies globally, including Aris Mining, Goldcorp, Endeavour Mining, UrAsia Energy, Wheaton Precious Metals, and West Red Lake Gold Mines.

Strategic Vision

Argenta's vision is to build a leading silver company to fuel the energy transition and create significant shareholder value.

Promising Exploration Upside

Significant Silver Resource

El Quevar boasts **45.3 Moz of silver at 482 g/t (Indicated) and 4.1 Moz (Inferred) at 417 g/t Ag(1)**, with significant potential for expansion and optimization.

Prime Location

Strategically situated along a major continental structural corridor, in proximity to world-class mines such as El Abra and Chuquicamata, and closer to Pirquitas and Chinchillas Ag, Zn, Pb mines (SSR Mining).

Top-Tier Pure Silver Asset

El Quevar stands as Argentina's third-largest undeveloped single silver resource, offering a high-grade, low-tonnage pure silver opportunity with significant infrastructure alongside \$60 million of historical investment.

Ground-level Valuation

Timing

Positioned to capitalize on rising metals prices, supported by increasing silver supply deficits.

Exceptional Value

El Quevar, located in a leading mining jurisdiction, is being acquired at a compelling valuation of approximately C\$0.10 per Indicated ounce, or less than \$0.08 on the dollar of historical investment.

Strong Financial Position

>C\$25M market capitalization post deal, with 100% ownership of El Quevar, C\$9.0M in working capital, and lead order from shareholder Frank Giustra.
